## SKILLS

- Python, Flask
- Javascript, Typescript
- JSON, Rest API
- MERN Stack
- SQL, No SQL
- AWS Cloud

## EDUCATION

### Bachelor of Computer Science

UBC In progress

### AWS Certified Cloud Practitioner

Amazon Pursuing

## LICENSES

### Class 5 Drivers License

BC, Canada

# LUKAS LEINS

WEB DEVELOPER

## SUMMARY

I first became interested in programming in 2020 when I took an introductory Python programming course. This experience sparked my passion for programming and development. I am now proficient in all facets of web development, possessing expertise in back-end development, the design and execution of dynamic UI's, and deployment capabilities, as shown in my projects. I am eager to enhance my experience and one day become a senior full-stack developer.

## PROJECTS

### Comic Finds - Comic book web scraper

Javascript, Python, Flask, Node.js, MongoDB

- Acquired expertise in web scraping for gathering pertinent data and optimizing data management techniques.
- Developed knowledge of AWS Cloud through deployment of application.
- Attained essential expertise in designing and implementing dynamic user interfaces.

### Raven - Messaging application

Javascript, Socket.io, Node.js, MongoDB

- Became proficient in handling and assigning ID's to users for messaging.
- Learned secure encryption techniques to ensure user privacy in messaging and chat sessions.
- Perfected techniques in managing communication between multiple servers for messaging and user sessions.
