# LUKAS LEINS

## WEB DEVELOPER

## SUMMARY

As a skilled web developer, I am adept in all stages of advanced web development. I have extensive knowledge in user interface design, testing, and debugging processes. I bring forth expertise in the design, installation, testing, and maintenance of web systems. With a diverse skill set encompassing various technologies and practices, I am capable of effectively working alone and collaborating in a team setting.

## PROJECTS

### Comic Finds - Comic book web srcaper

HTML, CSS, Javascript, Python, Flask, Node.js, MongoDB

- Acquired expertise in web scraping for gathering pertinent data and optimizing data management techniques.
- Demonstrated proficiency in common database operations
- Exhibited proficiency in deploying secure authentication protocols, including the integration of token-based login sessions.
- Attained essential expertise in designing and implementing dynamic page formatting and layout strategies.
- Developed knowledge of AWS Cloud through deployment of application

### Pixel Peak - Photo/Video browser

MongoDB, Express.js, React.js, Node.js (MERN Stack)

- Achieved proficiency in the MERN stack, demonstrating proficiency in its components.
- Demonstrated adeptness in retrieving and managing data through API calls.
- Gained key skills on deployment of application to AWS Cloud.
- Acquired expertise in implementing secure authentication mechanisms, including token-based login sessions.
- Developed proficiency in designing and implementing dynamic page formatting and layouts.

### Raven - Messaging application

HTML, CSS, Javascript, Socket.io, Node.js, MongoDB

- Became proficient in the utilization of the Socket.io library.
- Learned advanced encryption techniques to ensure user privacy in messaging and chat sessions.
- Gained experience implementing dynamic page features for real-time updates.
- Acquired essential skills in deploying application to the AWS Cloud.
- Developed database management skills with client and secure login token login sessions.
